

AVZ103-R104

Outdoor drain channel 100 mm with metal frame and galvanized grid C250

Application

For drainage of professional parking areas for passenger cars, pedestrian zones, side bands on roads and adjacent sidewalks

Features

- Numerous ribbing for a firm fixation within surrounding material
- Metal vertical flange reinforces the drain edges
- The cover of the side opening can also be used as an inlet connector – Ø75 mm
- Material with UV stabilizer against aging, fading and degradation of plastic
- Material: polypropylene filled with talc resistant to mechanical, chemical and thermal damage
- Modular system – optional connection to form "I", "L", "T" or "X" shapes
- Galvanized welded grid – fixed to the drain using four stainless steel screws, mesh size 12×18 mm
- Prepared slots for using the locking bars to anchor the drain in concrete
- Ready for optional use of the odour trap with a grid for collection of the dirt
- Water connection from the side of the drain is possible at four locations – Ø50 mm
- Sophisticated and solid locking mechanism for simple connection of the individual drains
- Robust construction – self-supporting
- Easy access to the drain – easy to clean
- Bottom outlet waste connection Ø110 mm
- Lock system allows easy connecting without additional fixing elements

Scope of supply

- Installation spacer 2 pcs
- Stainless steel screws for fixing the grid to the drain, 4 pcs
- Galvanized grid – welded – load class C250
- Drain body with metal frame
