

APR1-1101

Industrial box drain stainless steel AISI 304

Application

For drainage of large industrial facilities, and other commercial facilities inside buildings, eg. in the chemical and food industries
To drain large amount of water, suitable also for long distances

Features

- Industrial box drain made of stainless steel (heat treated by pickling and passivation), this process guarantees that the stainless steel even after several years keeps its properties and reliable operation
- Strong anchoring in concrete with simply adjustable legs and side anchors
- High flow rate
- Width for inserting the grid 240 mm
- Adjustable feet range 20-140 mm
- Used sealing ensures a completely watertight joint
- Easy cleaning and maintenance
- Insulating collar suitable for connecting to standard waterproofing
- Drain body material: stainless steel 1.5 mm, DIN 1.4301
