

# AVZ102-R501

Outdoor drain channel 100 mm with plastic frame and plastic grid A15

## Application

For drainage of public areas with pedestrians or cyclists, lawns, around buildings, pedestrian zones and areas of similar character  
For occasional crossing of passenger cars

## Features

- Grid locking without the use of screws
- The drain can be simply cut in half to form two equal parts
- Material with UV stabilizer against aging, fading and degradation of plastic
- Material: polypropylene filled with talc resistant to mechanical, chemical and thermal damage
- ☑ Low weight, high solidity
- Sophisticated and solid locking mechanism for simple connection of the individual drains
- Plastic grid – inlet slot width 12 mm
- Easy access to the drainage channel – simple cleaning
- Bottom outlet waste connection Ø110 mm
- Lock system allows easy connecting without additional fixing elements

## Scope of supply

- Plastic grid – load class A15
- Drain body with plastic frame

## Order number, Logistic information
